Material Safety Data Sheet

Issuing Date 25-Aug-2009 Revision Date 04-May-2012 Revision Number 1

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name Preval

Recommended Use Propellant (For Paint dispensing)

Supplier Address Chicago Aerosol 1300 North St Coal City, IL 60416

TEL: 815-634-5100

Emergency Telephone

Number

Chemtrec 1-800-424-9300

001-703-527-3887 (EU)

2. HAZARDS IDENTIFICATION

DANGER!

Emergency Overview

Flammable gas

Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing

May cause central nervous system depression Causes adverse cardiovascular effects

> Compressed gas Contents under pressure

Appearance Colorless. Physical State Aerosol. Odor Slight ethereal

Potential Health Effects

Acute Toxicity

Eyes May cause irritation. Contact with product may cause frostbite.

Skin May cause frostbite. Irritating to skin.

Inhalation Harmful by inhalation. Inhalation of vapors in high concentration may cause irritation of

respiratory system. At very high concentrations can displace the normal air and cause suffocation from lack of oxygen May cause central nervous system depression with nausea,

headache, dizziness, vomiting, and incoordination.

Ingestion Not an expected route of exposure. May cause additional affects as listed under "Inhalation".

Chronic Effects Avoid repeated exposure. Intentional misuse by deliberately concentrating and inhaling

contents may be harmful or fatal

Aggravated Medical Conditions Cardiovascular. Respiratory disorders. Central nervous system.

Environmental Hazard See Section 12 for additional Ecological Information.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %
Dimethyl ether	115-10-6	40-70
Isobutane	75-28-5	15-40
Propane	74-98-6	15-40

4. FIRST AID MEASURES

General Advice Call 911 or emergency medical service. Remove and isolate contaminated clothing and shoes.

Eye Contact Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Skin ContactWash off with warm water and soap. In case of contact with liquefied gas, thaw frosted parts

with lukewarm water.

Inhalation Move victim to fresh air. Administer oxygen if breathing is difficult and you are trained. If

breathing has stopped, contact emergency medical services immediately.

Ingestion Clean mouth with water and afterwards drink plenty of water. Consult a physician.

Notes to Physician Treat symptomatically.

Protection of First-aiders Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. FIRE-FIGHTING MEASURES

Flammable Properties Extremely flammable liquefied gas. Vapors from liquefied gas are initially heavier than air and

spread along ground. Containers may explode when heated.

Flash Point -155°F / -104°C Flashpoint Method Estimated

Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding

environment. Dry chemical or CO₂. Water spray, fog or regular foam. Move containers from fire area if you can do it without risk. Damaged cylinders should be handled only by specialists.

Hazardous Combustion Products Carbon monoxide. Carbon dioxide (CO₂). Formaldehyde.

Explosion Data

Sensitivity to Mechanical Impact None Sensitivity to Static Discharge Yes.

Specific Hazards Arising from the

Chemical

Vapors from liquefied gas are initially heavier than air and spread along ground. Avoid inhalation of combustion products. Cylinders exposed to fire may vent and release flammable

gas through pressure relief devices Ruptured cylinders may rocket.

Protective Equipment and

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH

Precautions for Firefighters (approved or equivalent) and full protective gear.

Hazards -

HMIS Health Hazard 2 Flammability 4 Physical Hazard 1 Personal Protection X

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Evacuate personnel to safe areas. Remove all sources of ignition. Keep people away from and upwind of spill/leak. Stop leak if you can do it without risk. Take precautionary measures

against static discharges. Pay attention to flashback.

Environmental PrecautionsUse water spray to reduce vapors or divert vapor cloud drift. Avoid allowing water runoff to

contact spilled material. Prevent entry into waterways, sewers, basements or confined areas.

Methods for Containment If possible, turn leaking containers so that gas escapes rather than liquid. Allow substance to

evaporate.

Methods for Cleaning UpThis material is a gas at room temperature. Do not direct water at spill or source of leak.

Other Information Ventilate the area.

7. HANDLING AND STORAGE

Handling Keep away from open flames, hot surfaces and sources of ignition. Take precautionary

measures against static discharges. Use only in area provided with appropriate exhaust ventilation. Use only in an area containing flame proof equipment. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Contents under pressure. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Do not puncture or incinerate cans. Do not stick pin or any other sharp object into opening on top of

can.

Storage Store in a cool, dry area away from potential sources of heat, open flames, sunlight or other

chemicals. Keep at temperature not exceeding 52°C

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Isobutane	TWA: 1000 ppm	N/A	N/A
75-28-5			
Propane	TWA: 1000 ppm	TWA: 1000 ppm	IDLH: 2100 ppm
74-98-6		TWA: 1800 mg/m ³	TWA: 1000 ppm
			TWA: 1800 mg/m ³

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value. OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits. NIOSH IDLH: Immediately Dangerous to Life or Health.

Engineering Measures Eyewash stations. Showers. Explosion proof ventilation systems.

Personal Protective Equipment

Eye/Face Protection Skin and Body Protection Respiratory Protection Safety glasses with side-shields.

Wear fire/flame resistant/retardant clothing. Antistatic boots Neoprene gloves.

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance

with current local regulations.

Hygiene Measures When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and

clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Estimated

AppearanceColorless.OdorSlight ethereal.Odor ThresholdNo information availablePhysical StateAerosol

pH No information available.

Flash Point -155°F / -104°C Flashpoint Method

Autoignition Temperature No information available.

Boiling Point/Boiling Range

-42.2 to -11.7°C

Decomposition Temperature No information available.

Melting Point/Range No information available

Flammability Limits in Air No information available.

Specific Gravity 0.6 Water Solubility 3.5%

SolubilityNo information available.Evaporation RateNo information availableVapor PressureNo data available.Vapor DensityNo data available.

VOC Content (%) 100

10. STABILITY AND REACTIVITY

Stability Stable under recommended storage conditions.

Incompatible Products Strong oxidizing agents. Halogens. Strong acids. Aluminium hydride Aluminum lithium hydride.

Conditions to Avoid Heat, flames and sparks. Temperatures above 52°C.

Hazardous Decomposition Products Formaldehyde. Carbon monoxide (CO). Carbon dioxide (CO₂).

Hazardous Reactions None under normal processing.

Hazardous Polymerization Hazardous polymerization does not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity

Product InformationNo acute toxicity information is available for this product.

Inhalation May be harmful if inhaled. May cause central nervous system depression with nausea,

headache, dizziness, vomiting, and incoordination.

Eye Contact May cause irritation.

Skin ContactContact with product may cause frostbite

Ingestion Not an expected route of exposure.

Component Information

Chemical Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Dimethyl ether			= 308.5 mg/L (Rat)4 h
Isobutane			= 658 mg/L (Rat) 4 h
Propane		-	= 658 mg/L (Rat) 4 h

Chronic Toxicity

Chronic Toxicity Avoid repeated exposure. Intentional misuse by deliberately concentrating and inhaling

contents may be harmful or fatal

Carcinogenicity There are no known carcinogenic chemicals in this product.

Target Organ Effects Central nervous system (CNS). Heart.

12. ECOLOGICAL INFORMATION

Ecotoxicity

The environmental impact of this product has not been fully investigated.

Chemical Name	Log Pow
Dimethyl ether	-0.18
Isobutane	2.88
Propane	2.3

13. DISPOSAL CONSIDERATIONS

Waste Disposal Methods This material, as supplied, is a hazardous waste according to federal regulations (40 CFR

261).

Contaminated Packaging Dispose of in accordance with local regulations. Do not re-use empty containers.

US EPA Waste Number D001
